EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with S. Warren Hall on October 10, 2006. In the telephone interview, permission was given to the Examiner to fix minor 35 USC 112, 2nd paragraph issues in claims 6 and 9 by Examiner's Amendment as agreed upon during the interview and as shown below.

The application has been amended as follows:

In claim 6, line 2, "5" has been changed to --1--; and line 5, "m" has been deleted.

In claim 9, line 3, said has been inserted before "rotor".

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or reasonably suggest the apparatus, as recited by instant claims 1, 2 and 6-11, particularly wherein the air moving member is the rotor having the plurality of blades with each blade having the inner and outer blade portions, each of the blades being mounted at the inner blade portions to the common mounting shaft for rotating the blades, the inner and outer blade portions being arranged such that the outer blade portions provide greater positive air pressure than the inner portions to produce the low pressure air draw at the inner blade portions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
